

Lifeline

Feel secure with Canada's most trusted medical alarm service

How Lifeline Works:

1. Summon help

Push your Lifeline help button to connect to our response centre. If you have AutoAlert, it automatically** calls for help if you fall and can't push your button.

2. Hear a reassuring voice

We access your personal profile and assess the situation.

3. Know Help is on the way

We contact a neighbour, loved one, or emergency services and follow up to make sure help has arrived.

HomeSafe Standard

-Wireless option available

Help at the press of a button in and around your home.

HomeSafe with AutoAlert¹

-Wireless option available

The FIRST medical alert pendant that can call for help even when you can't**.

GoSafe with AutoAlert¹

-Wireless option available

If you lead an active lifestyle, choose our premium service, which allows you the freedom to go* where you want, when you want.

* Certain limitations subject to third party cellular provider availability and coverage. Signal range may vary. **AutoAlert does not detect 100% of falls. 1) Available at locally participating programs. 2. Device must be used as directed. Button must be worn, adequately charged, and within range of a third-party cellular network. Availability of network not guaranteed. Tracking signal sent approx. every five (5) minutes while moving, once (1) per hour if no movement detected.
